MATERIALS:

STEEL	COPPER	BRASS	ALUMINIUM	STAINLESS STEEL	PLASTIC

1. RAPID STRIKE TIP™: Accurate start without walking and fast drilling without the need to pre-drill the material.
2. Optimised 2 flute ground sharpened edge geometry for 2 x faster and smoother cutting.
3. Special tip and step geometry for jam-free performance - less risk of drill snagging when used with high speed cordless tools and also prevents deformation of the drilled material.
4. Produced from cobalt quality steel and with a further AlCrN coating for 10X more life
5. Laser engraved size markings for best long term visibility.
6. Each step is relief ground to drill and deburr automatically.
7. With 3 flat secure grip to prevent step drill from slipping in the chuck and ensure maximum transmission of torque.
